

A better way to clean.

## Upsweep 32 Manual Sweeper

Superior sweeping performance and value in a compact, light weight design.

### Ten Times Faster than a Broom

Clean hallways, workshops, retail shops, warehouses and sidewalks up to ten times faster with the Tornado® Upsweep 32 Manual Sweeper. Pick up everything including metal shavings, nails, paper, leaves, and even packaging material. Light and compact, you can move from room to room with ease with this highly mobile electric unit.

### Quadra Brush System

The Upsweep 32 delivers a unique Quadra Brush System utilizing four rotating brushes—twin side brushes for edge cleaning, and twin main brooms—to pick up dirt, dust and debris with ease. The main brooms rotate in opposite directions, sweeping the dirt and refuse upwards and backwards into the dirt collector. The upsweep motion ensures maximum filling capacity of the dust pan, compared to a standard dust pan sweeping approach used on competitive models. With a low profile design, broom adjustments, and edge cleaning brushes on the outside corners, you clean twice as thoroughly in a fraction of the time.

### Benefits of the Quadra Brush System include:

- All debris passing beneath the core of the roller brushes is collected;
- The flexibility of the brushes easily picks up objects as large as the size of a soda can, and as small as fine particles of dust and sand;
- With no front end direct collector, the debris is never pushed along in front of the sweeper;
- With no rubber lip in the way, even light, bulky objects such as dry leaves and packing material are picked up with ease;
- The twin side brooms increase the width of your cleaning path, pulling light weight material such as paper into the dirt collector while providing excellent edge cleaning;
- Top loading dirt collector can be filled up 75% of capacity, unlike front load machines.

Upsweep 32 Manual Sweeper. Performance and value in a compact, light weight design.

## Key Features

- Ideal replacement for manual sweeping
- Maximize sweeping speed to over 30,000 sq. ft. per hour - 10 times faster than a manual broom!
- Unique Quadra Brush System for greater cleaning efficiency
- Efficient top-loading dirt collector minimizes dumping of dirt, compared to front-loading systems
- Light weight design for simple maneuverability, yet durable
- Large, non-marking rear wheels and front castor for enhanced mobility
- Collapsible handle for storage in small areas
- Compact design goes through any standard door and goes where large sweepers cannot
- Can be used for both indoor and outdoor applications

## Cleaning System Applications:

- Metal Shavings
- Nails
- Paper
- Leaves
- Large objects such as soda cans
- Hard-to-pick-up packaging material

Sweep over  
30,000 sq. ft.  
per hour!  
10 times faster  
than a broom!

Upsweep 32" Manual Sweeper

### Versatile

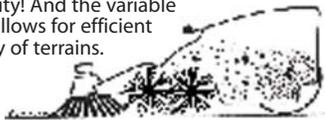

The Upsweep 32 can be used in small warehouses, machine shops, workshops, gas stations, retail stores, sidewalks, for indoor or outdoor concrete, and in parking lots.

### Twin Side Brooms

Twin side brooms sweep dirt out of corners and away from walls, directly into the cleaning path of the main brooms, which then flips up debris into the large 9 gallon hopper.

### Ease of Use

This easy-to-push manual sweeper is hard working, lightweight and fast, delivering over 30,000 sq. ft. per hour of sweeping productivity! And the variable height adjustment allows for efficient cleaning on a variety of terrains.

### Innovative Quadra Brush System

The Quadra Brush System utilizes four brushes, two side brushes and two counter-rotating brooms, to sweep and contain dust and debris of all sizes.

### Go-Anywhere Convenience

With large, rear mounted wheels, this unit will go anywhere easily and can even climb steps. A fold-up handle makes this unit perfect for small, compact storage spaces.

PRODUCT SPECIFICATIONS	
MODEL	Upsweep 32" Manual Sweeper
CATALOG NUMBER	96160
BATTERIES	None
DRIVE	Manual forward and reverse belt drive system
SWEEPING SYSTEM	Quad Brush System
MAINBROOM PATH	32"
